

CHEMISTRY-Semester II(CORE)-*CEMACOR03T*: INORGANIC CHEMISTRY-I

Parts of the Semester-II(CORE) Syllabus covered (by Dr. Jhumpa Mukherjee)

1. Chemical periodicity

2. A part of Redox Reactions and precipitation reactions (Solubility product, common ion effect etc.)

Course materials are regularly updated in Google Classroom named,

Inorganic Chemistry-JM

Sem-II(CORE)

Class code:46uj57o

LINK: <https://classroom.google.com/c/MTQzMzY3OTczMTFa>

In the Classroom,

1. Study materials are uploaded in regular basis- **Classwork** section.
2. Assignments are uploaded and graded in regular basis- **Classwork** section/Assignments.
3. MCQ tests and IA are also taken and evaluated - **Classwork** section.
4. Doubts are being cleared through audio/video conversations in- **Classwork** section and using Zoom class room platform.
5. Materials, PPT files, videos, assignments and MCQs for the Chemical Periodicity part is available in e-learning section of the website link given in the classroom.

Please enroll in the Google classroom with the help of the link and class code given above to get study materials and assignments in regular basis.
